

## First Team SuperMount46 Magnum

- Wall to backboard extension variable from 4'-6'
- Dense Southern Yellow Pine supports
- Safety support chains for added strength
- Solid square tubing construction with black powder coat finish
- Optional bolt on padding
- Breakaway flex goals

The SuperMount 46 simplifies the task of installing a top quality wall-mounted basketball structure. Never before has it been so simple to purchase and install a commercial quality wall-mounted basketball system. With First Team's SuperMount 46 there is no need to calculate exact extension before ordering. The SuperMount 46 is specifically designed to provide wall-to-backboard extension distances anywhere from 4' - 6' during installation. This allows the unit to be "fine-tuned" to match the court markings on the floor. You will avoid costly rework and field modifications commonly caused by measurement errors. Additionally, the SuperMount 46 is so versatile it can be configured to match up to any basketball backboard. So, no matter what backboard you prefer, you know the SuperMount 46 is compatible.

**Includes all mounting hardware and installation instructions.**

**SuperMount46 Aggressor - 4-6' extension structure, 42x60" white powder coated steel board, heavy duty breakaway goal, net**
